### Salient Features

1. It is best suited to being used in areas where it can withstand severe climatic conditions, avoid advantage of the plywood is that it is resistant to water/moisture exposure.
2. Excellent design flexibility with the possibility of it being retained in various shapes & sizes.
3. It is extremely power friendly as thin smooth finish minimizes the need for plastering, painting or varnishing.
4. In today's world, high fire stability makes of this plywood panel a cost saving alternative.
5. It is made of being chosen to withstand wear and tear in various applications where stability is an asset.

### Field Of Application

Due to its durability, fire retardant plywood is widely used in construction, transport, equipment containers and loading platforms. This kind of plywood can also be used to build loading docks, shelving units, dry goods equipment, form for earth, access, access concrete curb, worktable, loadings, loading and parking.

The logo features a stylized green letter 'G' above the word 'GREENLEAF' in a bold, green, sans-serif font, with 'concepts' in a smaller, lowercase, grey font below it. The billboard is a large, white rectangular structure on two black pillars, set against a backdrop of a blue sky with white clouds. To the left of the billboard, a row of white wind turbines is visible on a green hillside. To the right, there is a small, rustic stone building with a thatched roof and a tree with vibrant purple flowers.
